

The L&D Detective · Pocket Guide

EVIDENCE

Four moves, the exact questions, and how you know each one is done.

THE PIVOT LINE "I can help with that. Before we book anything, give me twenty minutes on what's happening on the ground."

C Clarify

- "What made this urgent now?"
- "90 days from now it worked: what's different on Monday, and which number moved?"
- "What's it costing us today?"

→ Done when: KPI at A, needs B, gap costs Y.

L Look around

- "Could your best performer do it today? What do they do differently?"
- "If training were perfect, what would still get in the way?"

→ Done when: gap named (skill / knowledge / process / tools / incentives / expectations).

U Uncover

- "Show me the last time it went wrong."
- "If that's the cause, what would the data show?"
- Say less, wait three seconds.

→ Done when: two independent sources, one cause.

E Execute small

- "Smallest pilot that proves or kills it in six weeks?"
- "Who reinforces this on Monday?"

→ Done when the bet is written: If we [intervention] for [audience], [metric] moves from [baseline] to [target] within [time], measured by [source].

THE FILTER

Does it make, save, or protect money?

THE FOUR PEOPLE

Sponsor

KPI Owner

Performer

Reinforcer

No Reinforcer, no case.

CLOSE THE CASE

- 01 what we found
- 02 what we did
- 03 what moved
- 04 what's next
